

Proposed Revisions to NAC 640A

Inactive License

Purpose: Add provision for “retired” practitioner to maintain an “inactive license” at a significantly reduced fee and eliminates the CE requirements for all “inactive” licenses.

Reduce the conversion fee for an inactive OTA license to not exceed the renewal fee for a standard OTA license.

Rationale: Individuals who retire from the practice of occupational therapy may wish to retain their license; however the CE requirement and renewal fee are prohibitive for an individual who is retired. Eliminating CE requirements for persons who are not practicing in Nevada (“inactive”) would not compromise the health and safety of the public.

CE requirements would be required to convert from “inactive” to “active” status; additionally, if a person who is retired wishes to become active, the full renewal fee would be assessed.

Fees – a retired individual would pay a fixed renewal fee of \$50 applicable to both OT and OTA.

Supervision Documentation

Purpose: Eliminate the requirement to maintain supervisory logs; require primary supervisor to review and ensure supervisory documentation is maintained.

Rationale: Logs are in addition to already established requirements for documentation; electronic means for monitoring and documentation has become the norm.

Maintenance of supervisory logs has not been consistent as is evidenced by monitoring and audits of supervision. Removing the “supervisory log” requirement addresses duplication in documentation and eases administrative burden on licensees.

No other states require this level of supervisory documentation.

PROPOSED NEW REGULATION

Purpose: To establish professional and ethical responsibilities of licensees who are business owners or who hold business affiliations; including OTA's in business and administrative roles.

Rationale: Several questions have been raised regarding conflict of interest in business ownership, working in an administrative role; and OTA supervision when the business owner is an OTA or directly related to the business owner.

The AOTA Code of Ethics includes provisions relating to business ownership and similar relationships; the proposed regulation provides clarification by delineating the responsibilities of the practitioner in those roles.
