In this session, we will discuss any questions about the fall legislative newsletter. We will also discuss upcoming Hill Week and how to attend. This is a safe space for any practitioner, student, or educator to ask questions about Nevada regulation and/or legislation.

Objectives:

1. To understand the purpose of virtual Hill Week.
2. To take this opportunity as a safe space to ask questions about Nevada legislation and regulatory policies.
3. To understand how Nevada Medicaid affects occupational therapy practice.

Rachel Martin is an inpatient rehab occupational therapist. This is her second year as NOTA legislative chair.
